

The benefits of Intelerad's imaging solutions with the flexibility, scalability and peace of mind of a managed service offering.

Intelerad's nuage® Cloud Imaging Platform is designed for growing medical imaging organizations challenged by complex IT ecosystems, constrained IT resources or aging systems.

This managed platform allows businesses to avoid the challenges and expense of recurring investments in technology and staffing, while always benefiting from updated technology, security controls to maintain productivity and business continuity.

The result: a greater return on investment, rapid expansion capability, enhanced performance, and securely protected data.

Managed Cloud Solution

A hosted imaging solution for both reading workflow and archival that drastically reduces the headaches of IT infrastructure ownership and provides highly resilient data protection. The solution enables healthcare organizations to benefit from a modern platform that scales as your business grows. By employing a simple, fee-per-study model the solution provides predictability and alignment with ongoing expenses and revenue growth.

- › Focus on your core competency and offload technology ownership and management of your imaging workflow and archival needs
- › Eliminate the headaches, risk and challenges associated with deploying and maintaining complex systems and business continuity
- › Managed by a specialized team, with expertise in security, networking, storage and virtualization
- › Ensure your systems are always operating on up-to-date, state-of-the-art infrastructure

Key Benefits

- › Facilitates predictable IT budgeting with an all-inclusive fee-per-study model
 - › Protect your data with advanced security
 - › An operationally agile system that scales with your business needs
 - › Advanced protection with state-of-the-art security controls
 - › 24x7x365 proactive monitoring and performance optimization to maintain peak performance
-

High Quality Products and Expertise, Now Available in the Cloud.

INTELEPACS AND CLARIO SMARTWORKLIST

Enhance your productivity, optimize your workflow and maintain a high quality of patient care without the headaches of managing your own IT infrastructure.

Key Features:

- › Simple, cost-effective, fee per study model
- › Freed up IT resources
- › Scalability that aligns performance and usage needs 24x7x365 proactive monitoring for performance optimization

NUAGE LONG-TERM STORAGE

A cost-effective and scalable cloud storage solution for your imaging needs.

Intelrad's nuage Long Term Storage solution implements high-level security for data storage across geographically diverse data centers supporting data protection.

The solution gives clients peace of mind, knowing their data is being monitored and supported 24x7x365, while preventing workflow disruption, and ensuring business continuity.

Key Features

- › In-country cloud data centers for performance optimization
- › Unlimited growth capacity available in real-time
- › Simple pay-as-you-grow storage costs
- › High security and data protection

DATA PROTECTION AND COMPLIANCE

Intelrad invests a lot of time to secure your data, and remains compliant with the increasing number of security controls of HIPAA and HITECH. In addition, we regularly undergo security training, 3rd-party penetration testing and security auditing to ensure your patient data remains safe against new threats.

- › All systems are hosted in secure data centers in compliance with SSAE 18, SOC 1&2 and HIPAA/HITECH
- › All data in transit or at rest is always encrypted and meets FIPS 140-2
- › Continuous system protection that is tested and validated by third-party consultants

SCALABLE COSTS AND STRONG VALUE

Enjoy the simplicity and predictability of our monthly pricing where:

- › Investment based on a cost model with limited upfront or ongoing capital requirements
- › Cost and revenue are aligned to maximize profitability and provide enhanced return on investment
- › Easy to budget with a predictable cost model for new business acquisition

"Our practice has grown substantially in the last few years and Intelrad was the PACS partner we needed to support us in our projected growth in the coming years. Intelrad's robust cloud solutions and services have helped increase our radiologists' efficiency and optimized our practice's overall performance."

David Castleberry, Chief Executive Officer of South Georgia Radiology Associates.

Be your kind of special. **Stand Out.**
